Art Unit: 2164

Response to Restriction Requirement: In response to the restriction requirement of September 7, 2005, Applicant has elected Group I, claims 1-6. Applicant states that the election is made with traverse, but no specific arguments are presented in traverse of the restriction requirement. Accordingly, the election is held to have been made without traverse (See MPEP 818.03(a)). The restriction requirement is made final.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1: Line 4 refers to a storage device, but line 19 refers to “each of devices”, which makes it unclear as to whether there is one device or a plurality of devices. Line 6 refers to “the job” but line 24 refers to “job-by-job basis” which makes it unclear as to whether there is one job or multiple jobs.

Claim 2: The term “virtualizer” is indefinite, as it not clear what structures or software constitute a “virtualizer”.

Claim 3: Depends on claim 2.

Claim 4: Same grounds of rejection as claim 1.

Claim 5: Same ground of rejection as claim 2.

Claim 6: Depends on claim 5.

Claims 1-6 would be allowed if written to overcome the rejections under 35 USC 112.
